Hard Skills

- ASP.NET Core Web API (.NET Core 3+)
- Angular (2+)
- Blazor (.NET 8+)
- SQL Server (T-SQL)
- Azure DevOps (CI/CD), Git, Postman, Jira, Confluence
- Azure + Azure OpenAI
- FastAPI, REST/OpenAPI (Swagger, ReDoc, Scalar)
- ASP.NET Framework 4.x (MVC, Razor), IIS (6+)
- SSRS, Power BI
- Java, PL/SQL
- React Native
- ASP Classic
- CUDA & OpenCL

Professional Summary

Software Engineer and Tech Lead experienced in enterprise systems, integration, and legacy modernization. Trusted technical point of contact for clients, leading planning, debugging, and delivery of critical systems. PhD in Computer Science focused on game engines, game algorithms, high-performance computing, and teaching. Focused on AI-assisted engineering, AI integration, gamification, and modern development practices.

Professional Experience

Apr 2021 – Present — **Full-Stack Developer → Team Lead → Tech Lead** · Amaris · Enterprise Financial Systems
Led full-stack development, system integration, and modernization of enterprise platforms. Delivered AI-enabled services, improved architecture, and served as primary technical contact.
Tech Stack: ASP.NET Core Web API, Angular, Blazor, SQL Server (T-SQL), Azure DevOps (CI/CD), Git, Postman, Jira, Confluence, Azure + Azure OpenAI, FastAPI, REST/OpenAPI, ASP.NET Framework (MVC, Razor), IIS, SSRS, Power BI, ASP Classic

Aug 2020 – Apr 2021 — **Support Engineer** · Axians · Enterprise Cloud Services
Resolved incidents and ensured stability of cloud-based media and communication services.
Tech Stack: SQL Server (T-SQL), Azure, IIS, React Native

Jul 2019 – May 2020 — **ASP Classic Developer** · Amaris · Enterprise Financial Systems
Maintained financial applications and optimized database queries to support stable system operation.
Tech Stack: SQL Server (T-SQL), ASP Classic

Jan 2019 – Jun 2019 — **Java Developer · Data Migration** · Amaris · Enterprise Financial Systems
Supported enhancements to existing systems and reviewed PL/SQL migration scripts for inter-bank data transfer.
Tech Stack: Java, PL/SQL

Feb 2018 – Dec 2018 — **Technical Account Manager** · Amaris · Gamification & WFM
Supported deployments, onboarding, workflow setup, and technical operations.
Tech Stack: SQL Server (T-SQL), Azure DevOps (CI/CD), REST/OpenAPI, IIS, SRSS, Power BI

Jul 2017 – Jan 2018 — **Software Engineer** · RedIT · Energy, Social/Health & Enterprise Systems
Developed and maintained large-scale model-based systems.
Tech Stack: Angular, SQL Server (T-SQL), ASP.NET Framework (MVC, Razor), IIS, PL-SQL

Jan 2013 – Dec 2016 — **Researcher** · FCT · UBI · Game Engines & Game Algorithms
PhD grant holder under the reference *SFRH/BD/86533/2012*, researching game engine architecture and hybrid pathfinding algorithms. Published and presented work in academic venues.
Tech Stack: LaTeX, Git, OpenGL, Java, C/C++

Jan 2012 – Jul 2016 — **Lab Instructor** · UBI · Game Tech & Computer Graphics
Delivered lab sessions and supervised student projects.
Tech Stack: LaTeX, OpenGL, Java, C/C++

Jul 2007 – Dec 2011 — **Researcher** · IT · UBI · Game Engines & Game Algorithms
Contributed to funded research projects, including:
— *PTDC/EIA/70830/2006 — MOGGY*: developed components for a browser-based MMO engine focused on distributed systems.
— *POCI/V/04.01302/0155/0002/2006*: created interactive learning materials and visualization-driven mathematical resources.
Tech Stack: LaTeX, OpenGL, Java, C/C++, CUDA & OpenCL

Gonçalo N. Paiva Amador

Full-Stack Developer, Tech Lead

Soft Skills

- Problem solving ●●●●●
- Tech communication ●●●●○
- System design ●●●●○
- Ownership & delivery ●●●●○

Languages

Portuguese	Native
English	C2
French	A2
Spanish	A2

Interests

- Video games & gamification
- Personal software projects
- Personal hardware & prototyping projects
- Cultural exploration (monuments & travel)
- Long walks & outdoor activities

Other Info

- **Research:** 13 publications (4 journals, 9 conferences)
- **Speaker:** 9 keynote talks at technical events
- **Driving licence:** B1/B

Education

Jan 2013 – Jun 2017 — **PhD in Computer Science (18/20)** — UBI
Thesis: Influence-based Motion Planning Algorithms for Games
Supervisor: Professor Abel Gomes
Developed a modular game engine (JOT) and integrated influence-map techniques with pathfinding algorithms, contributing research, algorithm design, engine development, and scientific writing.
Tech Stack: LaTeX, Git, OpenGL, Java, C/C++

Sep 2010 – Jul 2011 — **BSc in Information Systems & Technologies (15/20)** — UBI
Final Project: Seamless zoning algorithms for MMOGs over a Grid
Supervisor: Professor Abel Gomes
Developed scene-management techniques for a Java-based grid-computing game, contributing research, implementation, evaluation of grid frameworks, and reporting.
Tech Stack: LaTeX, OpenGL, Java, C/C++

Sep 2007 – Oct 2009 — **MSc in Computer Science (18/20)** — UBI
Thesis: Real-Time 3D Rendering of Water using CUDA
Supervisor: Professor Abel Gomes
Extended a 2D fluid-simulation algorithm to 3D using GPU techniques, contributing research, CUDA implementation, and scientific writing and presentations.
Tech Stack: LaTeX, OpenGL, Java, C/C++, CUDA & OpenCL

Sep 2001 – Jul 2007 — **BSc in Computer Science (13/20)** — UBI
Tech Stack: SQL Server (T-SQL), LaTeX, OpenGL, Java, C/C++, Prolog, OCaml

Sept 1998 – Jul 2001 — **Professional High-School Degree in Electrotechnics and Electronics** — High-School of Peniche

Technical Certifications

2023 – 2026

2021

2014 – 2018

November 9, 2026
